1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest individually or in combination the limitation of "transmitting silence descriptor (SID) frames from the first to the second component during the periods of source data inactivity, wherein the SID comprises codec mode information, and wherein source data frames are block diagonally interleaved and certain of the SID frames are block interleaved as recited in claims 1, 13 and 25; and the limitation of "transmitting by the first component in the AMR communications system, an escape frame in place of a source data frame to indicate a configuration change to the second component, the escape frame comprising codec mode information and a gross bit pattern to distinguish the escape frame from source data frames" as recited in claims 16, 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
